A. Quality of student work, pace and content, appropriateness of teaching methods and action(s) taken to resolve any problems

This is a compulsory part of the MRes VEIV. Students form groups and groups are allocated a single mark. This is a flagship module for the programme and the high average respect the effort put in. One of these groups managed to publish their project in CVPR, a very highly exclusive conference.

B. Any Learning Resources problems which have affected the provision of the course unit (quality of lecture or tutorial rooms, laboratory or IT facilities and action taken or planned)

None. The EngD VEIV Centre puts considerable equipment money in. Lack of space for group working is a common problem across the faculty.

C. Issues identified by students (from questionnaires, staff-student committees etc.) and action taken or planned

No issues.

D. Issues identified by External Examiners and action taken or planned

No issues.
