

University of Cambridge

Examination Transcript

Damon Wischik has achieved the following grades in examinations at the University of Cambridge:

Mathematical Tripos, Part IA, 1993: 1st Class

Courses in Part IA: Algebra and Geometry, Methods and Calculus, Dynamics, Differential Equations, Discrete Maths, Probability

Mathematical Tripos, Part IB, 1994: 1st Class

Courses in Part IB: Analysis, Methods, Linear Mathematics, Complex Methods, Quadratic Mathematics, Special Relativity, Quantum Mechanics, Statistics, Further Analysis, Geometry, Optimization, Numerical Analysis, Markov Chains, Functional Analysis, Rings and Modules

Mathematical Tripos, Part IIB, 1995: 1st Class

Courses in Part IIB: Combinatorics, Groups and Representations, Galois Theory, Algebraic Topology, Logic and Set Theory, Probability and Measure, Applied Probability, Statistical Inference, Communication Theory

Mathematical Tripos, Part III, 1996: 1st Class

Courses in Part III: Stochastic Networks, Advanced Financial Models, Advanced Probability, Percolation, Ramsey Theory, Biostatistics, Essay on Routing and Wavelength Assignment in Optical Networks

Tutorial Office Side J

25 MARCH 1998
